### REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The claim in the instant application thoroughly sets forth each distinguishing element of the invention and is not reasonably anticipated or rendered obvious by the prior art. Furthermore, it is noted that the present application, which is a continuation of application 10/292,723, now patent no. US 6,685,742 B1, is not subject to a double patenting rejection either in view of the prior art or alone. The present claim is a combination of claims 9-12 in the parent application; specifically, it is a combination of claim 9, which depends from claim 8, which in turn, depends from claim 7, and of claims 10, 11 and 12, each of which independently depend from claim 7. Accordingly, the subject matter of the present claim is not fully disclosed in, and covered by, any single claim of the parent. See *In re Schneller*, 397 F.2d 350, 158 USPQ 210 (CCPA 1968). See also MPEP § 804. Therefore, the claim as presently set forth is allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to David C. Comstock whose telephone number is (703) 308-8514.
